WORK EXPERIENCE

WIPRO TECHNOLOGIES

Bengaluru, India

September 2020 – Present

Developer L2

- Developed advanced solutions to reduce effort within teams and improved efficiency across 100+ accounts.
- Collaborated with senior management, including the delivery head, to drive and implement new initiatives within the team.
- Provided comprehensive training and guidance to 20+ colleagues and new joiners, facilitating a smooth transition into their roles and integration within the team.
- Utilized orchestration tools to expedite solution deployment in accounts, streamlining processes and reducing dependencies on separate modules.

Developer L1

- Generated 10-15 impactful use cases resulting in effort reduction of more than 30-40%.
- Collaborated with cross-functional teams from various domains to develop efficient and innovative solutions.
- Successfully worked in diverse environments, including Storage, Network, Wintel, Linux and EUC.
- Led end-to-end automation processes, encompassing requirement gathering, design creation, script development, and comprehensive end-to-end testing.

Projects

Myself

Still under construction

April 202

- Persistent
- Chances takers
